

Security Installer/Technician (Low voltage)

People's Security Company, a subsidiary of Crow Wing Power, has an opening for a full-time Low Voltage Security Installer/Technician. This position is responsible for installation and service of systems in residential and/or commercial businesses as well as verifying system performance. The applicant must possess outstanding skills to maintain accurate records, be computer literate, maintain confidentiality, be customer friendly, and the ability to stay up-to-date with technology.

Essential Duties and Responsibilities:

- Run and install wire, read blueprints, and mount system panels and devices
- Wire circuits and electrical connections for access control, CCTV and intrusive detection systems
- Program installs, test, troubleshoot, and maintain low voltage security systems and products
- Verify security system/equipment functionality by testing equipment, connections, and signals, indentifying and correcting problems
- Maintain records by documenting installations
- Mandatory confidentiality of information
- Maintain safe and secure environment and follows safety practices
- Positive working relationship with customers and employees

Requirements:

- Must have a high school diploma or equivalent
- Must possess a valid driver's license
- Power Limited Technician license preferred
- Able to pass drug test and physical demands of position
- Must possess the qualification, experience and skills deemed appropriate by management

We offer an excellent benefits package and competitive salary.
Medical exam and background checks are required.

Please send resume/application by March 16, 2018
